

My study abroad experience

2016-2017 Ireland

My name is Marina and this year I have lived an incredible experience in Ireland. It has been an adventurous, challenging and extraordinary opportunity.

During this formidable year I was being a student from Kinsale Community School. Being able to live an experience as a student in Ireland has been a dream for me. During the year you can choose subjects of great variety, which makes going to school easy and fun. My classmates and teachers introduced me to school, helping and teaching me everything I needed to know. Studying in Ireland is a pleasure because people respect you as you are and do not judge you if you come from another country. I have learnt a lot, and also made friends that I will not forget.

I was worried about the considerable culture differences. But, all these worries disappeared once I arrived. I was warmly welcomed by my host family. My best moments in Ireland have been with the host family, they made me feel part of them at all times. They showed and taught me everything about Ireland and treated me the best they could. The experience of being part of an Irish family is amazing and unforgettable.

Throughout the year I have met many incredible people who have made this great adventure even more special. Study Abroad in Ireland has been one of the most outstanding experiences in my life. Educate with friends made me feel secure and they have been there to solve any questions or problem during the year.

Sometimes the best way to learn is to dare to step away from what we know, what we are certain of, and instead trust in the possibilities that await us.
