

My name is Alex, I'm 15 and i am living a full year in Ireland with a host family. My experience here is being great, I've made new friends, and the best thing is that I've improved my English a lot.

The host family is very nice, they're really kind, and at the end they are like your real family.

The school is great too, you do lots of activities, and if you are in the 4th year you do the show, which is an amazing experience.

It also is a good thing for you because you grow up by yourself.

Rachelle is doing meetings during the year, and she organizes some activities for us, like the rib tour... amazing activities.

I recommend this experience to the people who want to improve their English and have a great experience!

Alex
