

My name is Cristina,

I am 14 years old and I was an exchange student in Kinsale Community School in first year. I think coming to Ireland has been the best decision I could've ever done. I've had a great experience living with fantastic people that opened their home to a stranger, have been incredibly sweet with me and they've treated me as a member of their family.

My English has improved a lot since I first came here in September and I've learned lots of new things from Irish culture. I regret not staying here for a longer time and I hope I'll come back again soon to visit.
