

I'm Sofia and I have been doing Transition Year at the Kinsale Community School for the past three months. I really enjoyed my stay and I'm so thankful for this opportunity, I definitely wouldn't want to miss out.

Kinsale is a lovely town at the south coast of Ireland, so it's directly at the sea, which is perfect for lots of different activities like kayaking or surfing. Also it's only half an hour away from cork, a lively and of course beautiful city, which is worth a visit.

I stayed with a really welcoming and nice family. I played lots of different funny games especially with the two children. We went to the Muckross national park, visited Killarney and they showed me other breathtaking places in Ireland. I really appreciate everything they did for me and they let me feel like a part of a family.

I met lots of new people and made friends for a lifetime in Transition Year (4th Year). The experiences I gained in TY are unforgettable especially Ballyhass, which is like an adventure park with an aquapark and you could do archery, kayaking or wakeboarding for example.

All the people where so nice and I felt really welcome and integrated.

I enjoyed everything I experienced and I'd do it again.
